

2026 Vendor Request for Qualifications (RFQ)

Issued by: Shaping Our Appalachian Region

Submission Deadline: Friday, January 16, 2026

Overview of Shaping Our Appalachian Region

Shaping Our Appalachian Region (soar-ky.org) is connecting talent, opportunity, and community to get 15,000 Eastern Kentuckians to work by 2030. We believe in the power of community, the value of meaningful work, and the potential of every individual. We're creating pathways to move Eastern Kentucky forward, empowering individuals to achieve economic self-sufficiency while contributing to thriving communities: One person at a time, one family at a time, one community at a time.

For 15 years, Shaping Our Appalachian Region has led the movement to strengthen Eastern Kentucky's economy and empower its people. Founded as a bipartisan nonprofit and powered by a team that lives here, we understand both the challenges and the potential of Eastern Kentucky. We're solving problems from the inside out: Building partnerships, programs, and systems that create lasting opportunities across all 54 counties.

Our work brings together a willing, trained workforce and employers who need them, ensuring both people and businesses succeed and communities grow.

Talent: We prepare people for meaningful careers through skills training, personalized coaching, and wraparound support. Our programs connect individuals with stability services and provide tailored job placement through our membership program and job board.

Opportunity: We build strong relationships with local and national employers, helping them find the right talent quickly and support their workforce for long-term success. We assist companies with training and retention strategies that benefit both employees and businesses.

Community: We strengthen communities by supporting infrastructure, tourism, and local partnerships that make Eastern Kentucky a place people want to live, work, and invest in. We help tech and tech-enabled businesses launch, scale, and grow, creating new opportunities across the region.
